

## TURNER GROUP HEAD OFFICE REFURBISHMENT – PHASES 1 and 2

The works comprised the refurbishment of and alteration to an existing 1970's office and storage facility to provide modern flexible office and meeting accommodation, and canteen facilities for The Turner Group head office staff in Glasgow. The fabric works included repairs to the existing roof, brickwork, concrete lintels, cills and mullions, and new aluminium double glazed windows to replace the single glazed 1970's windows and new curtain walling installation to replace large steel loading bay doors. Internally, strip out works and asbestos removal was carried out and a fresh, bright interior was provided with new lighting, ceilings, carpets and wall coverings as well as upgrading the mechanical and electrical installations throughout internally. Externally, the boundary wall and fence was replaced and existing security gates refurbished to give a more modern look to the building.

Contract Value:     £1,600,000.00
