

NHS GREATER GLASGOW & CLYDE BAILLIESTON HEALTH CENTRE

Allan & Hanel provided quantity surveying services on the construction of a single storey extension, alteration and upgrading of the Baillieston Health centre building, re-configuration of the existing remaining car park and creation of new adjacent car park.

The building was constructed of timber kit construction with facing brick, render and timber boarded external walls, aluminium windows and single membrane roofing complete with mechanical, electrical, plumbing and drainage services.

Project Value: £1,250,000

Client: NHS Greater Glasgow & Clyde

Architect: Page & Park
