## AKELA CONSTRUCTION CONVERSION OF WAREHOUSE TO OFFICES, GLASGOW

---

Allan & Hanel provided Quantity Surveying and CDM Co-ordinator Services on the conversion of part of an existing warehouse into new offices, meeting rooms, kitchen and training facilities over two floors. The works included construction of an upper floor and breaking through the external cladding to install windows and curtain walling. The works had to be carried out in a live working environment where the existing warehouse was still operational.

Project Value:       £600,000  
Client:                Akela Construction  
Architect:            macmon Architects
