## NHS GREATER GLASGOW & CLYDE MEDICAL CENTRES

---

Allan & Hanel have acted as Project Monitor on a series of medical centre developments in the Greater Glasgow & Clyde area. These projects involved the development and construction by third party developers of new build GP and dental surgery facilities.

To date, we have been engaged in projects in Balornock, Carntyne, Old Kilpatrick, Possilpark, Govan and Yoker with Contract Values up to £1,200,000.

Our project monitoring role included providing advice on the legal and technical aspects of the development proposals, as well as monitoring the works during the construction and post completion stages.
