## NHS GREATER GLASGOW & CLYDE WESTERN INFIRMARY HOSPITAL, GLASGOW

---

Allan & Hanel have been involved in refurbishment and alteration projects at the Western General, providing both QS and CDM Co-ordination services.

### **Levels 7 & 9 refurbishment**

The works involved asbestos removal works; alterations to accommodate additional bed spaces in four bed and single bed wards, with en-suite bathroom and shower facilities; renewal of existing doors; replacement of existing floor wall and ceiling finishes; upgrading and renewal of existing mechanical and electrical installations, including sanitary ware, water installations, heating and ventilation installations, small power, lighting and fire alarm installations, nurse call systems and medical gas installations; together with associated fittings and decoration.

Project Value:       £3,800,000

Architect:           Cooper Cromar

---

## **Lift upgrade works**

The works involved the phased refurbishment of one pair of Duplex passenger lifts, all within existing lift shafts, motor rooms and landing entrances, including associated builders and electrical works.

Project Value:       £100,000

Consultant:           The Robin Primrose Partnership
