

HUB WEST SCOTLAND HILLHEAD COMMUNITY CENTRE

Allan & Hanel provided full Quantity Surveying and CDM Co-ordinator services for the new build, single storey, timber-framed, Hillhead Community Centre for East Dunbartonshire Council.

The project won the Community Partnership Prize at the Scottish Property Awards 2015.

The works comprised the demolition of an existing building and the construction of a new build single story community centre with a double height feature pitched roof to part of the building and mezzanine plant room including external envelope, internal fit-out and decoration, mechanical, electrical and plumbing installations, external drainage, fencing hard and soft landscaping. The existing building also had Asbestos Containing Materials which had to be properly and safely removed and disposed of.

The building will provide a safe and welcoming space and will address the local communities' needs, meeting the different requirements of the groups that will operate from within it.

Project Value: £ 2,500,000

Client: hubWest Scotland/East Dunbartonshire Council

Architect: macmon
