

NHS GREATER GLASGOW & CLYDE DEMOLITION, ENABLING & ASBESTOS REMOVAL PROJECTS

We have been employed as Quantity Surveyor on the NHS Greater Glasgow & Clyde's Demolition of existing properties within their estate since 2012.

To date we have been involved in over 20 projects, these vary from enabling works prior to demolition, asbestos removal works and demolition. The project values have varied from less than £15,000 to £575,000 and at present there are a further 25 sites scheduled for demolition

We have also carried out projects on behalf of NHSGG&C as part of their Asbestos Removal and Remediation Services Framework for projects over £50,000.

We are the Cost Advisor on the Demolition Programme Framework which is led by the Frameworks Scotland Health Facilities Scotland Two (HFS2) Principal Supply Chain Partner Graham Construction.

Contract Value to Date: £3,250,000
