

ST EDWARDS' & TOLLBRAE PRIMARY SHARED CAMPUS, AIRDRIE

We are providing CDM Advisor Services on the construction of a new shared school campus, which merges Tollbrae and St Edwards' Primaries. The two schools currently sit on adjacent sites on South Biggar Road in Airdrie and the new school building will have two classroom wings connected by a shared gym, dining hall and multi-purpose rooms.

Consisting of 20 classrooms over two floors plus two nurseries, the new building will be on the site of the two schools' existing playing fields. The existing schools will later be demolished, with car parking to be constructed where Tollbrae currently stands and a floodlit synthetic pitch on the existing St Edward's site.

Project Value: £11,000,000

Client: North Lanarkshire Council

Architect: Halliday Fraser Munro
